Good Morning, Patriots!

Page 1 of 2

Going UP!

The effect of Donald Trump's first 50 days is being seen...

Jobs added in February, 2017 reached 237,000; of these 58,000 were in construction and 28,000 in manufacturing.

According to the Federal Reserve, Americans' household net worth reached a record \$92.8 trillion in the Fourth Quarter of 2016. February, 2017 labor participation rate was 63% and wages, year-over-year, were up 2.8%. The elevator is going back **UP** and Obama's "DOWN" button has been disabled!

Embezzler-in-Chief

During his last year, Barack Obama funneled \$9.2 billion to the United Nations (*above* usual U.S. support). Fortunately, the \$221 million he marked as a *gift* to the Palestinian Authority (*Hamas*) was discovered and canceled by President Trump.

A DOJ "slush fund" has been discovered; another payoff scheme to Obama's supporters. Billions of taxpayer dollars were funneled from the DOJ budget to the *National Council of La Raza*, the *National Community Reinvestment Coalition*, and the *National Urban League*. Sounds like the same pay-for-play scam Obama called his \$800+ billion *Stimulus Plan* in 2009...

The embezzling of the Obama Regime is being exposed.

"Let's blame the Russians for Hillary's loss and tie Trump to it!"

The Big Lie

There have been months of innuendo, supposition, invention and downright fantasy projection, from the Democrat-controlled media, the DNC and progressive Republicans, all trying to sell the country on the hair-brained scheme that the Donald Trump presidential campaign colluded with the Russians to defeat Hillary Clinton.

All this exercise in foolish futility and there still is NO evidence of collusion or conspiracy between Trump and the Russians; NONE.

After the expansive camaraderie between the U.S. Left and the Soviets, now Russians, over the decades, it doesn't pass the smell test to tie Trump to the Russians.

When the open mic comment between Obama and Medvedev was heard prior to the 2012 presidential election, where Obama assured the Number Two Russian that he "would have more latitude after... the [2012 presidential] election," no one in media raised the question of "collusion" between Barack Obama and the Kremlin. Even when the whispered comment by the U.S. president could have been interpreted as a veiled promise to further reduce U.S. nuclear stockpiles, allowing Russian nuclear resources to remain static, no questions came from the press, at White House briefings or anywhere else.

As Bill and Hillary Clinton sealed the deal with their Canadian friend Peter Gius-tra for 20% of U.S. uranium production for the Russians, for millions of dollars up front and the promise of another \$100 million in the coffers of the Clinton Foundation, I heard no questions from the U.S. media (or the Republican Party, for that matter) and saw no exposure in the press.

Over decades of cozy relations between the Democrat Party, their major leftist supporters in the U.S. and the Soviets – no comments about Cold War collusion *against* U.S. interests and security. Even when the Venona Papers and other post-

Soviet KGB documents revealed Democrat Senator Ted Kennedy's requests for assistance from the Soviets to deny President Ronald Reagan a second term in 1984, the U.S. press was *silent*. Revelations of Democrat Party cooperation and complicity with Communist Party groups in the U.S. and other nations, to the detriment of U.S. security, is a matter of record – but not in the media. Consult *The Enemies Within* by Trevor Loudon (Pacific Freedom Foundation, ©2013) for some truly sickening revelations of ties between Democrat Party elected officials and nefarious people who are profoundly anti-American.

There is NO evidence of this "faux conspiracy" to throw an election, when the Russians would have obviously preferred Hillary in the White House and had NO access to the actual voting apparatus.

But there IS decades of evidence for the other "collusion" – the one we have watched over eight years as the U.S. backed out of Eastern Europe and the Mideast for the Russians to advance, as our own military was summarily downsized to non-readiness, possibly due to comments exposed between two men who share a common ideology, caught on an open mic.

If the Russian "hacking" had been a serious issue, for so long, why didn't the Obama White House seize Hillary Clinton's unsecured private server for safety?

Connect the dots correctly; you can't miss the wide, well-traveled trail. It doesn't lead to Trump Tower, it leads to the DNC and George Soros. Even the Russians have had enough of the Big Lie.

Drop the Russian nonsense; it's unable to be proven and Americans' patience is wearing thin with this "007" rerun...

We Be People

"History affords us many instances of the ruin of states, by the prosecution of measures ill suited to the temper and genius of their people. The ordaining of laws in favor of one part of the nation, to the prejudice and oppression of another, is certainly the most erroneous and mistaken policy.

"An equal dispensation of protection, rights, privileges, and advantages, is what every part is entitled to, and ought to enjoy...

"These measures never fail to create great and violent jealousies and animosities between the people favored and the people oppressed; whence a total separation of affections, interests, political obligations, and all manner of connections, by which the whole state is weakened."

So said Benjamin Franklin, in his *Emblematical Representations*, in 1774.

Many of us are aware of Ben Franklin's expertise in science and diplomacy, but we now see his prescience in predicting the authoritarian agenda of someone like Barack Obama, through a mentor such as Saul Alinsky, and the resultant complete politicization of an entire government...

The Obama Regime chose which laws would be enforced and which would be ignored; which groups would be favored and which would be oppressed. Prejudice and racism would be magnified and used as a cudgel against those who favored liberty over enslavement to the State. Then they acted.

Methods to amplify "violent jealousies and animosities between the people favored and the people oppressed" were made priorities under the Obama Regime. Pitting local police departments in states across the nation against their own minority neighborhoods (using accusations of "systemic racism") was one strategy. Using Black Lives Matter with funding from George Soros was one successful tactic to deliver the manufactured violence and animosity to split the nation apart.

Now it's up to President Trump to attempt to glue it all back together again, in a hopefully smaller administrative state. He has to face these disrupters and "resisters" and expose them for the damage they intend to continue to inflict on our Republic.

President Obama's "deep state" operation

Leakers

Last weekend, President Trump launched another Twitter bombshell, declaring former-President Obama had "wire-tapped" Trump Tower.

In reporting by Sara Carter and John Solomon of *CIRCA News*, they reported March 9 that back in October, 2016 a blanket warrant was issued through the FBI for surveillance on the server in Trump Tower.

If there was no connection between the Trump presidential campaign and the Russians, which then-President Obama stated last fall, why did his attorney general Loretta Lynch order a blanket wiretap for Trump Tower in October? Why would she want to monitor the server in Trump Tower for communications with Russian banks?

A sitting president looked at communications on a political opponent's private business server. Why would anyone (including clueless Republicans who balk at the accusation) doubt the law-breaking capability of the Obama Regime?

In "Fast & Furious," vast quantities of semi-auto firearms were illegally sold in bundles to Mexican drug cartels, all in an effort to highlight illegal trafficking of firearms from U.S. dealers to foreign criminals (for the purpose of imposing strict gun control measures on law-abiding U.S. Citizens).

Senator Dianne Feinstein (D-CA) and other senators on the Senate Intelligence Committee had their communications monitored by agents in the Obama Regime. Other senators, past and present, were also subject to "listening" by Obama agents.

The Associated Press (AP) had their e-mail communications monitored by the Obama Regime.

James Rosen, a Capitol Hill reporter for *Fox News Channel*, had his e-mail hacked. The Obama Regime also went so far as to invade his parents' e-mail security.

Then there were the attacks by Lois Lerner and others in the Obama IRS to harass and intimidate Obama's political opponents in the Tea Party movement and other conservative groups and religious organizations; the massive increase in NSA meta-data collections spread over private

U.S. citizens; and the "planting" of confidential security files on CBS reporter Sheryl Atkisson's private laptop in 2014.

And the Republican leadership, even Senator John McCain (R-AZ), doubt President Trump's "allegations" of wire-tapping?

Obama administration operatives conducted illegal activities, far outside constitutional boundaries, for the entire eight years of his time in office, and we question President Trump's veracity?

Leaks created by Obama remnants, the leftist holdovers still working within the Trump administration, are numerous since the Trump Inauguration and are *felonies*.

Surveillance abuse reached critical mass under the Obama Regime. We are now seeing the ugliness of Obama's "deep state" autocracy exposed with leaks by Obama hold-over staffers buried deep within the federal bureaucracy and the "fake news" propaganda pushed by leftist media.

The current president of the United States was under surveillance by the intelligence agencies of our own government – NSA, CIA and DHS, ordered by the Obama Regime under the "Stellar Wind" data collection program.

And now, with the latest WikiLeaks reveal of CIA methods in Stellar Wind (the ability to "mask" or "mimic" a hacking source), we now know all of our citizens, no matter who they are, can be "wired." Everything is being collected from everyone, violating our rights under our Constitution, particularly the Fourth Amendment.

Leaks from the Trump White House and its various agencies are THE national security problem in the U.S. and need to be addressed immediately. Attorney General Jeff Sessions needs to empanel a grand jury and start handing out subpoenas to every member of the former Obama Regime that touched the leaked material... then collect testimony, prosecute and sentence.

Enough!
